

Supply Chain Disruption Task Force

Facilitate information-sharing and resource development on supply chain disruption

Responsibilities

- Plan educational sessions related to supply chain disruption (identify speakers, specific topics, and timing for events)
- Share information on disruptions occurring with issues such as freight delays, shipping rates, supply shortages, local port congestion, labor issues, transportation, and shipping costs
- Identify partners and coalitions to support broader industry initiatives
- Meet with port authority officials and government agencies to address challenges and work toward resolutions and resources
- Work with industry coalitions to support policy solutions to ongoing challenges

Ideal Volunteers

- Experience working in spice supply chain, procurement, ocean freight, transportation and shipping logistics, etc.
- Engaged and vocal on challenges and resolutions
- Strong problem solver and solution-oriented

Volunteer Time Commitment

- Participate in virtual and in person meetings, as needed.
- Minimum one-year commitment.
